EVERGREEN NURSERY

F. C. HETZ & SONS, Proprietors

FAIRVIEW
ERIE COUNTY, PA.

Introduction

To our friends, old and new :

We are in the nursery business alone—no outside interests or control.

We own the land upon which we grow our stock.

Terms:—Cash, unless satisfactory arrangement is made prior to shipment. Boxing charged for at actual cost.

All stock is dug and shipped direct from field; no stock stored for months in moldy cellars. Evergreen Specimens are shipped with ball and burlap.

Stock is guaranteed to be true to name. While we exercise the greatest care to have stock true to name, we will in no case be liable for any sum greater than the purchase price.

We give no guarantee as to growth of stock, however we send stock out only in A No. 1 condition. Your care will determine your success in growing any plant or tree.

All stock selected and marked by the customer at nursery will be charged for at its actual value. Prices in this catalogue will not govern such stock.

All spreading trees will be measured spread, not height.

We have some varieties of specimen Evergreens larger than those listed in the catalogue. If interested, write for prices.

Copy of Certificate of Inspection with every order.

EVERGREENS

Evergreens add a wealth of charm and beauty to every landscape. They give color and contrast in summer. All winter long they show life and give promise of spring.

All our Evergreens are sold B & B.

By B & B we mean dug in the ground they stand in and burlapped so the dirt will not loosen.

All evergreens listed herein are specimen trees having been transplanted and sheared. We do not send out inferior stock.

An Attractive Evergreen Planting.

ARBOR VITAE (THUYA)

Arbor Vitae American

A tall pyramidal tree of compact growth. Stands trimming well and for this reason is the most widely used of all evergreens for globes, hedges, etc. Foliage bright green. We have an exceptionally fine block this year.

6-8'	Each	6.00	10 for	50.00

RETINOSPORA (JAPANESE CYPRESS)

The Retinospora family of evergreen as a whole is a very beautiful and interesting lot, being of slow growing compact habit and very readily shaped by pruning. Their foliage varies in color from deep green and blue to bright yellow and sulphur, in texture from minute needles to thread-like branchlets.

Retinospora Decussata

This variety makes a slow growing, broad bluish cone densely covered with juvenile needles.

15-18"	Each	\$2.00	10 for	\$17.50
18-24"	Each	2.25	10 for	20.00
2-2½'	Each	2.60	10 for	23.50

Retinospora Filifera

Sometimes called Thread Cypress. A broad globe which in time makes a broad pyramid. The thread-like pendulous foliage is dark green in color.

18-24"	spread	Each	\$2.50	10 for	\$22.50
2-2½'	spread	Each	3.00	10 for	27.50

Retinospora Decussata

Retinospora Filifera Aurea

A bright yellow type of the former, slower in growth. Very desirable for color contrast.

15-18"	spread	Each	\$2.75	2-2½'	Each	\$5.00
--------	--------	------	--------	-------	------	--------

Retinospora Obtusa

A strong grower of bushy or compact form. Foliage scalelike, clear green, drooping and graceful. Will do well in partial shade. Prefers well watered light sandy soil. We recommend this evergreen for group work.

15-18"	Each	\$1.25	10 for	\$10.00
18-24"	Each	1.75	10 for	15.00
2-2½'	Each	2.25	10 for	20.00

3-4'	Each	3.50	10 for	30.00
4-5'	Each	4.50	10 for	40.00

Retinospora Obtusa Crippsi

A strikingly handsome dwarf with drooping branches, growing into a broad graceful cone. This is the brightest golden evergreen in cultivation and truly a gem for contrast in group planting.

15-18"	Each	\$2.25	10 for	\$20.00
18-24"	Each	3.00	10 for	27.50

Retinospora Obtusa Gracilis Aurea

A graceful light green evergreen with pendulous, glossy foliage. Its graceful drooping characteristic added to its pleasing color makes it very conspicuous.

2-3'	Each	\$3.75
------	------	--------

Retinospora Pisifera

A dense light green cone. Foliage silvery beneath. An excellent shrub for group plantings. Also fine for formal work and tubs. We have trimmed these to solid cones. They are an exceptional lot. Because of our heavy supply we make the following low prices.

15-18"	Each	\$1.25	10 for	\$10.00
18-24"	Each	1.60	10 for	13.50

Chestnut, Chinese Hairy

A solution for the replacement of the doomed American Chestnut. We quote the following from a report sent to us from the U. S. Department of Agriculture.

"The Chinese Hairy Chestnut has proven to be very resistant to the blight. Trees are sometimes killed by this disease, but, when so affected, have usually been grown under unfavorable conditions.

In our experiments we have failed to lose any trees of this species where the trees have been kept growing rapidly. In many situations this means that trees should receive cultivation and fertilization. On other soils the trees make sufficient growth to have the resistance to throw off the disease without fertilization and cultivation. We regard this species as the most favorable of any which we have tested for resistance to the blight."

The fruit of this chestnut is very little different from the American Chestnut.

We take pleasure in presenting to you this catalogue. It is the best we have ever prepared for the public. As we are growing so is our only salesman, this catalogue.

We are associated with the National Advertising Campaign of Nurserymen. The slogan of this Association is "It's not a Home until it's Planted." The object is to teach the general public to see and appreciate beautiful home surroundings. Every home grounds should be a place of beauty and the pride and joy spot of its owner.

We are pleased to offer this year a more complete range of sizes and varieties than ever before. Stock has made up well.

Visitors are always welcome. We urge you to stop when going through Fairview. It is always a pleasure to show the Nursery to those interested.

New friends are added each year. May we serve you?

To reach the office of the Fairview Evergreen Nursery turn south at the only traffic light in Fairview, drive one block, turn left on the gravelled road and drive about a quarter of a mile. The office is the third place on the right hand side of the road.

General Planting Instructions

CARE OF STOCK ON ARRIVAL:

When you receive your trees and plants, plant them as soon as possible. Do not allow them to stand around and dry out. Open the bundles, remove the packing materials and bury the roots in some shady place, packing the soil well around them so the air cannot possibly reach the roots. But remember, the sooner your trees and plants are in their permanent places, the better it will be.

Be sure to have your ground in good condition before planting. Prepare it in the same manner as you would for planting a field of corn and have the holes dug large enough to admit the roots in their natural position. If the roots are crowded, you will be sure to lose the tree.

When you have the tree in the hole, fill it about half full of soil and tramp it solid. Then, if the ground is dry, pour in about a half bucket full of water and let it settle. Then fill the hole with mellow dirt and tramp it solid. If the soil around the tree is not solid, the wind will cause the tree to sway back and forth, thus forming an opening so that the air can reach the roots and kill them. However, the soil on top should be loosened to the depth of about an inch to prevent the ground from baking and to conserve moisture. Do not use manure or fertilizer.

Cultivate your evergreens as you do your corn.

Do not use manure or fertilizers for trees.

Do not allow dogs to get to evergreens.

Put a wire screen around them.

Evergreens need a bath. Turn the hose on them full force, and keep them clean.
